“Over the past 2 years, Sheetz has installed almost 200 of Excel’s air machines. Our reasoning for selecting Excel was the high quality of the machines, the professionalism of the personnel and their experience within the industry. We spec and recommend no other air machines.”

— Mark Wilson

Director of Store Support, Sheetz

THE INDUSTRY STANDARD

America’s Leader in Digital Air Inflation

The leading air inflation equipment in the marketplace that digitally calibrates your customer’s tires

AIR

Instructions - Read Carefully
This is a fully automatic air tower

1. Set desired pressure using the plus (+) or minus (-) buttons
2. Press hose chuck on tire valve stem
3. Hold until you hear a beep.
Tire is now accurately calibrated.

If tire does not inflate when hose chuck is connected to valve stem, push the flat tire button.

Work With An Industry Leader

Excel Tire Gauge is America's leader in digital air inflation equipment. Since 1991 we have manufactured and sold over 50,000 units worldwide, with customers including **Sheetz, Cumberland Farms, Costco and Shell New England**. We manufacture the leading air inflation equipment in the marketplace that digitally calibrates your customer's tires to a preset PSI-ensuring a level of accuracy and safety that your customers will embrace, enjoy and come to expect as the new standard.

SC05

SC05 Electronic Air Tower includes:

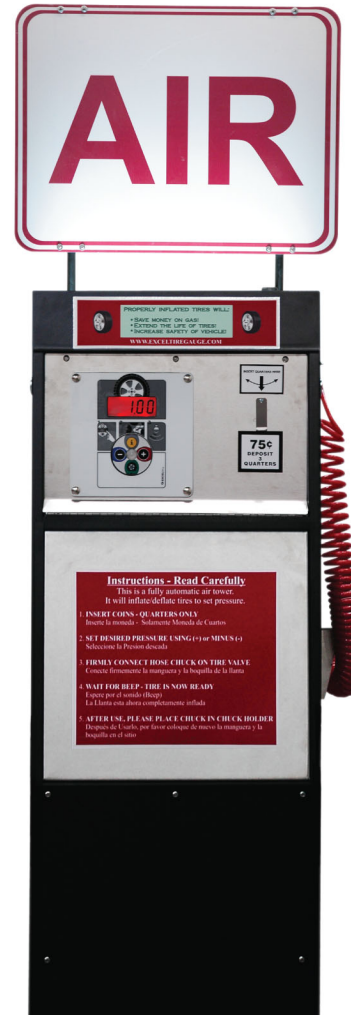

- 54" steel cabinet
- Electronic digital air gauge
- 3/4 HP high flow oil-less air compressor
- Built in heater
- Standard colors are red, green, blue, yellow
- 30' coil hose and chuck
- 1-year warranty
- Toll-free live support

Additional Options available:

- Pay option
- Stainless steel cabinet
- Internal heater and external chuckholder
- GPRS modem (online communications)
- 3 HP available for trucks
- Customized decals for orders of 5 or more

An Excel Tire Gauge machine will:

- Create a 'wow' with your customers
- Help you stand out from your competition
- Increase customer satisfaction
- Drive more traffic to your site including your other profit centers
- Strengthen customer loyalty
- Position you as an eco-friendly business given the lowering of carbon emissions with properly inflated tires

SC09

The SC09 has every feature of the SC05 plus:

- Coil hose from the top of unit
- Clear English and Spanish instructions
- Thick steel gauge cabinet body with optional capability to fill bottom of the unit with cement
- Larger vault box (\$1,000+)
- Top LED lights
